HOW TO ORDER

Four steps to the right product

1 **Find the part**
Look up the vehicle or axle make in this brochure, or read the OE number off the old part or from the parts book.

2 **Send the reference**
Quote the Miles part number (for example MMR-01), the OE number, or the rubber-to-metal list number.

3 **Add the details**
Give the vehicle model and year or the axle type, the quantity, and the dimensions if the part has no readable number.

4 **Confirm and order**
UCT confirms the matching part, availability and price before the order is placed.
